

CALEB HOENSHELL

Gaffer and Key Grip

INTRODUCTION

Hello. I'm Caleb and I am a Gaffer and Key Grip with a truck package local to the NWA region. Originally, wanting to be DP, I gravitated to G&E as it seemed an effective path for the career I was seeking. However, after working on several projects, both long and short form, I realized that I loved the hands on nature of G&E, and found myself gravitating towards sparking and gripping. Along the way I began purchasing my own equipment which helped me increase my skill with the gear greatly. Since then, I've had the opportunity to work on great projects as a Grip, Electric, Best Boy, Gaffer and Key Grip.

PROFESSIONAL SKILLS

- Experience with wireless DMX (CRMX)
- Experience with Cam Lock basic distro
- Experience with HMI, Tungsten, Kino and LED lighting units.
- Experience with car rigging, overhead rigging, etc.
